7、Settings	34

1、 Desktop description

• The sidebar integrates functions such as return, desktop, comments, widgets, signal source, etc.;

- Screen projection code, which can be used for projection screen (Screenshare);
- Status bar display, wired network, wireless network, USB inserted;

• More applications, settings, application display pages;

2、The use of whiteboard

•Click on the whiteboard to start the whiteboard writing.

Click " Write icon, you can select and adjust the handwriting color and size;
After setting the color and handwriting size, you can write what you want on the whiteboard;

• Click the Erase " . , the touch of your finger can turn into an eraser, which can erase the content you don't want;

• Double click the Erase" ?, you can slide to clear the screen, the effect is to clear all the content on this page;

*Note: If the eraser icon is not selected, the recognition area can be enlarged, such as the palm and back of the hand, and it can also be recognized as a eraser;

• Click the Select " ? , click on the written content & picture to select this part of the content, zoom in and zoom out, rotate, drag, select, copy, delete and other operations;

•Click the Roam " , to open the multi-point writing on the whiteboard (up to five points writing at the same time)

*Note: If you turn off roaming, you cannot zoom in, zoom out, or operate on the whole;
